PLEASE SPONSOR

.....

Thank You for Choosing to Support the Hyperbaric Chamber.

We focus on improving quality of life for our patients on the Isle of Man; improving recovery rates from disease, reducing pain and enabling early return to work. In 2009 more than 227 patients ranging from 3-92 years of age received treatment at the Hyperbaric Chamber these include Islanders suffering from fractures; ulcers; chronic pain and multiple sclerosis. All told 32 separate conditions were treated, including infection; injuries to muscle and tendons; bone grafting and decompression illness.

People from all walks of life are referred to the Hyperbaric Chamber from hospitals and doctors' surgeries around the Island. The treatment they receive is free of charge and relies on part grant funding from the Department of Health and Social Security and their generosity and enthusiasm of individuals and groups, helping us to improve life for others.

Your donation will go directly to the work of the charity and make a real difference to the quality of life of a great many people on the Isle of Man. Wishing you the very best of luck.

Saturday 1st August 2015.

The obstacles included tyre crawls, a tyre hill carry, large (very solid) wooden walls to scale, slippery slopes, netting crawls, a deep mud section, a car scramble, a long monkey bar set and a very steep hill.

On their own these were not much but put together and combined with the location the Tough Mann challenge was much harder than a normal 10km race.
